

Santiam Canyon SD 129J - IP Annual Report 23-25

Identifier #	Annual Response Question	2023-24 Annual Progress Reflection	2024-25 Annual Progress Reflection
1 AR1	<p>As you review your progress markers/overall reflection responses and reflect on plan implementation, how do you see your progress contributing to the Outcomes and Strategies in your plan and your Longitudinal Performance Growth Targets (LPGT)/Local Optional Metrics (LOM)?</p> <p>Discuss at least one Outcome where you have seen progress in implementation.</p>	<p>Early literacy is showing promising gains from the earlier learning loss. Programming changes and additional supports appear to making significant progress in our interim data, which should begin to translate into state testing improvements. Systematic changes at the high school and middle levels are showing improvements in systems, supports and instruction. These changes have not translated into improved student scores on testing, but some of that is still due to the state's allowance of opting out of testing.</p>	
2 AR2	<p>Where have you experienced barriers, challenges, or impediments to progress toward your Outcomes and Strategies in your plan that you could use support with?</p> <p>Discuss at least one Outcome where you have seen challenges or barriers to implementation.</p>	<p>Real systemic change takes time to translate into student scores. We are moving the dial and our staff are making great strides to adjust to the needs of our students, while increasing rigor and outcomes. We are doing great work, but testing scores continue to be hampered by a state system that holds schools accountable to scores, but does not hold students and families accountable to even taking the tests. This divergence continues to make testing an invalid measure of student progress.</p>	
3 AR3	<p>2024-25 Only: Review actual metric rates compared to previously created LPGT and LOM and share reflection on progress. Describe how activities are supporting progress towards targets and if any shifts in strategy implementation are planned for the future based upon that current progress. Include specific metrics and target types in your reflection.</p>
